

| SESSION     | TIME         | DETAILS                                                    |
|-------------|--------------|------------------------------------------------------------|
| Intro       | 9:00 – 9:30  | Coffee and tea on arrival                                  |
|             | 9:30 – 9:45  | Welcome and introduction                                   |
| 1           | 9:45 – 11:00 | Bringing you up to speed on PBS                            |
|             |              | Demystifying PBS                                           |
|             |              | Where PBS can assist your business                         |
|             |              | Examples of PBS in action                                  |
| Morning tea |              |                                                            |
| 2           | 11:15 – 1:00 | Explanation of the scheme and its operational implications |
|             |              | The PBS process - who needs to get involved and when       |
|             |              | Information you need to provide                            |
|             |              | Pre-advised Design approvals                               |
|             |              | New vs Old equipment                                       |
|             |              | When my vehicle can't pass PBS                             |
|             |              | Operational constraints and how you can minimise them      |
|             |              | Maximising your payload height and volume                  |
|             |              | What PBS can and can't provide                             |
|             |              | Going outside the scheme - there are ways to get more      |
|             |              | How PBS may change in the future                           |
| Lunch       |              |                                                            |
| 3           | 2:00 – 4:00  | Securing Access for PBS Combinations                       |
|             |              | The path to PBS access                                     |
|             |              | In-principle' approval for access                          |
|             |              | NHVR's route planner and pre-approved networks             |
|             |              | Permit approvals for access and access conditions          |
|             |              | Useful sources of online information                       |
|             |              | Recent PBS success stories                                 |
